

MSc Business and Airline Management

Take your career to new altitudes! The 1 year MSc Business and Airline Management offers a dynamic, industry-connected programme for ambitious individuals ready to shape the future of global air transport.

Combining core business themes and skills with insight and real-world application, you will explore the world of airline management from strategic, operations and data-driven perspectives to develop the analytical and managerial skills needed by airline organisations worldwide. Whether you're advancing within the sector or transitioning from another field, you'll gain the confidence, global perspective, and industry understanding to stand out in a competitive marketplace.

Campus

Zurich

Intake

from 22 February 2027

Credits

90 ECTS (180 UK Credits)

Why Choose this Programme?

- Study in Zurich, home to Switzerland's busiest international airport and the national carrier, giving students direct access to a thriving aviation ecosystem.
- With global airline industry revenues set to reach an all-time high of nearly \$ 980 billion, this is the perfect time to join a sector set to grow for the foreseeable future

Diverse Career Opportunities

Graduates of the MSc Business and Airline Management programme are prepared to step into leadership roles across airlines, airports, aviation authorities, consultancies, and beyond.

Programme Highlights

- Earn IATA certification in Airport Operations Fundamentals as part of your programme
- International student network, in a multicultural city with networking opportunities across business, aerospace, and tech sectors
- Master Classes from airlines, airports, regulatory bodies, and aviation service providers to learn about real operational challenges.

Entry Requirements:

- Bachelor degree in any discipline
- English B2/IELTS 6.0 or equivalent
